

FireSmart™ Courses

FireSmart™ Canada and FireSmart™ BC offers *FREE* online classes to help people learn how to reduce the risk of wildfires. The self-directed format allows learners to complete each training at their own pace.

FireSmart 101

1 hour

- Provides an introduction to FireSmart and its principles
- Helps participants understand the need to protect homes and properties from wildfire
- Defines the wildland urban interface
- Outlines the seven FireSmart disciplines
- Explains the FireSmart the home ignition zone.
