

REMINDER – WASTE PICK-UP

Operations & Maintenance (O&M) will be assisting with waste pick-up.

Please note:

Waste must be properly sorted **before** pick-up.

O&M staff are there to collect materials only.

We are not able to stand on site and sort through unsorted waste.

Unsorted or mixed waste will be left behind.

We appreciate everyone doing their part to keep the process running smoothly for the whole community.

Thank you for your cooperation.

-1 entry – Lot is cleaned and maintained (no loose waste)

-1 entry – Waste is properly sorted and ready for pick-up

-1 entry – Community clean-up effort (visible work beyond your own lot – main roads, roadside, shared areas)

Maximum of 3 entries per home.

All before and after photos will be taken and texted to Housing.

Roberta Savey
